

Your safety is our top priority at honeygrow!

honeygrow requires all team members to use cut gloves to reduce the risk of knife cut injuries. It is your responsibility to follow all proper cut glove safety procedures to reduce your risk of injury. No glove no love!

Follow these steps:

1. Wash hands prior to using cut gloves
2. Put on disposable glove first on the opposite hand that you are holding the knife with
3. Put cut glove on over the disposable glove
4. Put on other disposable glove over the cut glove

Acknowledgement:

I have been trained on the proper use of Cut Gloves.

All of my questions have been answered by my manager and I feel confident using Cut Gloves.

I understand the requirements for using Cut Gloves are:

- Comply with the Cut Glove safety instructions
- Failure to comply can result in serious injury and disciplinary action up to + including termination.
